Innovation Fund

Project Development Assistance

Dr. Zoran Stanic, Head of IF Unit, EIB
February 1st 2024
EIB at a glance

Largest multilateral lender and borrower in the world
Leading provider of climate finance
Governed by the EU Member States

Over €1.5 trillion invested since 1958
- More than 14,400 projects in over 160 countries
- Crowding-in bank: € 4.9 trillion overall investment mobilised
- Lending ca. 88bn EUR in 2023

Headquartered in Luxembourg
- Around 4,800 staff: In addition to finance professionals, we have engineers, economists and socio-environmental experts
- 57 offices around the world
Key highlights

- The EIB has been supporting the European Commission and CINEA, with the implementation of the Innovation Fund through a dedicated Project Development Assistance (PDA) to improve the maturity of projects for subsequent applications.

- The bank has screened 87 projects, completed 34 projects in the first 4 calls, PDA preparation and execution is ongoing for further 32 projects.

- The purpose of PDA is to increase the project’s maturity based on specific recommendations. Projects receiving PDA support can reapply to subsequent IF calls (not mandatory).

- Projects can receive technical and/or financial PDA support.

- PDA is contributing to a balanced portfolio of projects being supported by the IF. New sectoral and geographic targets will further help foster a balanced portfolio of projects.
The Innovation Fund includes a dedicated **Project Development Assistance (PDA)** to improve the “maturity” of projects for subsequent applications.

“**Maturity**” refers to selection criterion C in Article 11 of the Delegated Regulation of the Innovation Fund: “*Project maturity in terms of planning, business model, financial and legal structure as well as project of reaching the financial close within a predefined period of time not exceeding four years after the award decision*”

The EIB has been entrusted by the Commission with the implementation of the PDA task in accordance with Article 18(1)(c) of Delegated Regulation (EU) 2019/856.

The PDA will be implemented by financial and technical experts of the EIB with support from external consultants.
PDA support following an application to the IF

Project development assistance support (PDA)

Proposals that are not selected for funding due to budget limitations (including those on the reserve list, if any) and proposals that fail to reach the threshold for any of the project maturity sub-criteria will be proposed for PDA if they:

• have given their consent in the application form

• respect at least the minimum requirements for ‘GHG emission avoidance’ and reach the minimum thresholds for ‘Degree of innovation’ and ‘Replicability’ (if applicable in accordance with the evaluation in cascade).
### Independent reviews
- Technology assessment: verification of key technical parameters of the project
- CAPEX & OPEX review
- Market analysis review
- Pilot project review and scale-up risk assessment

### Financial modelling
- Review of the existing financial model
- Development of a bank-standard financial model

### Additional studies
- Business case modelling
- Market research
- Life Cycle Assessment (LCA)

### Other Financial Advisory
- Business Plan assessment
- Corporate strategy guidance
- Advice on fundraising strategy
- Support with equity pitch documentation
PDA is contributing to a geographical balanced portfolio of projects being supported by the IF

- PDA has been awarded to projects in 15 countries
- 7 projects supported with PDA are related to waterborne transport sector, either in a subcategory of ‘Energy Intensive Industry’, ‘Hydrogen’, ‘CCS’ or ‘Biofuel’
- From 2024 onwards, new sectoral and geographic targets will further help foster a balanced portfolio of projects
Several projects supported by PDA awarded grants or recognised at National and EU level

**INNOVATION FUND GRANT**

**SSC-2022**
- **CUSTARD** – Italy/Iron and Steel

**LSC-2022**
- **MEIGA** (Green MEIGA) – Spain/Low Carbon Fuel
- **H2-LSE-TGNA** (T-HYNET, Tarragona Hydrogen Network) – Spain/Hydrogen
- **GIGAGREEN** (Giga Arctic) - Norway/Energy Storage
- **TRISKELION** – Spain/CCU - Refineries

**SSC-2021**
- **CO2ncrEAT** – Belgium/Glass, ceramics & construction material
- **HyPusH** – France/ Hydrogen

**BREAKTHGOUTH ENERGY CATALYST**

- **CO2 Battery** (EnergyDOME) – Italy/Energy Storage (Grant and funding recipient)
- **FSONE** (Flagship One) – Sweden/Low Carbon Fuel (Grant recipient)
- **Sun2Store** (MALTA) - Spain/Storage (Breakthrough Energy Venture)

**NATIONAL GRANT/PROJECT RECOGNITION**

- **GreenHyseO** – Italy/Hydrogen - funded by Regione Lombardia and by Italian National Resilience and Recovery Plan (NRRP) as part of H2iseO project
- **TRISKELION** – Spain/CCU - Refineries, declared a Strategic Industrial Project in Galicia, Spain
- **H2Pole** – Spain/Hydrogen - funding from Spanish national programme “H2 Pioneros” in Recovery, Transformation and Resilience Plan
- **SynBioS** – Italy/ Energy storage and CCU technology - funded by NRRP in Italy

**PROJECTS OF COMMON INTEREST**

- **CCSPrinosGR** – Greece/ Carbon capture and storage (CCS)
- Few more projects in LSC-2022, PDA under discussion

- **Grant awarded under IF SSC2**
- **Invited for grant preparation under IF LSC3**
- **Breakthrough energy catalyst grant recipient**
Innovation Fund PDA

EIB financial and technical experts provide Project Development Assistance (PDA) to Innovation Fund eligible projects.

- After submitting an IF grant application, and if unsuccessful, your application may be eligible for PDA.
- PDA aims to enhance the financial viability and improve the technical maturity of project proposals for submission to future Innovation Fund Calls (although not compulsory) or other EU funding requests, national grant preparation or financing from private sources.

- Project promoters who are interested in obtaining PDA support may approach the EIB directly.
- Eligibility for the Innovation Fund is a prerequisite for consideration of Open PDA.

Applying or benefitting from PDA is not dependent on submitting an application to the Innovation Fund.

Under the extended PDA process, new sectoral and geographic targets are in place, and a larger number of projects will be supported.
