

7th Compliance Conference

8th and 9th November 2016

Update on behalf of E-reporting Task Force

E-Reporting Task Force (TF)

Activities in 2016

- ⇒ A number of Member States have actively supported the DECLARE Installation project, increasing the uptake of information technology – one of the TF work-plan goals
 - ⇒ Utilise this experience in future communications, so further promoting the use of information technologies available for ETS delivery
- ⇒ DECLARE to be available for Aviation later this month (as requested yesterday volunteers sought)
- ⇒ No TF meeting has been held this year nor planned

E-Reporting Task Force

Future activities in 2017 and beyond

- ⇒ Support the Aviation DECLARE development
 - ⇒ Engage with future developments proposed with Eurocontrol
- ⇒ Further work Supporting the realisation of the E-reporting vision for Phase IV:
 - ⇒ Improving quality of data, efficiency to the compliance cycle, greater credibility and confidence to achieve greater uptake of information technology
 - ⇒ Greater data harmonisation from the use of both information technologies and data exchange formats
- ⇒ Meet on demand or tie in with future DECLARE project meetings

Thank you

Andrew Matterson,
Manager of E-reporting Task Force,
Environment Agency, UK
