

Authorisation of quota

- How to authorise (bulk) quota to an importer of equipment pre-charged with HFCs...
- How to accept a quota authorisation...

in the F-gas Portal & HFC Licensing System

January 2023

General information

Both companies (grantor and beneficiary) must have a valid registration in the F-gas Portal & HFC Licensing System.

Only companies can authorise quota (=act as grantor), which defined themselves as bulk importer/ producer in their business specifications.

The beneficiary has to be defined as importer of equipment pre-charged with HFCs in their business specifications.

It is not possible to authorise your quota to yourself (in case your undertaking is registered as both bulk importer/ producer and importer of pre-charged equipment).

The authorisation of quota must be issued in the F-gas Portal & HFC Licensing System. Contractual agreements alone are not sufficient.

Be careful not to confuse authorisations with quota! Quota is used for imports of bulk HFCs, while authorisations are needed for imports of RAC equipment pre-charged with HFCs.

Authorisations are valid until they are used up and carried over to the next year(s).

How to authorise quota to an importer of equipment pre-charged with HFCs

Log into the F-gas Portal & HFC Licensing System at <https://fgas-licensing.ec.europa.eu> and enter the company profile from which you want to authorise quota (=grantor).

MESSAGE BOARD:

REFERENCE VALUES 2021-2023

Reference values for 2021 to 2023 have been adopted. The companies receiving a reference value are listed here: [Commission Implementing Decision \(EU\) 2020/1604](#)
For more information on the calculation please consult Annex V of the F-Gas Regulation (EU) 517/2014.

The Commission plans to allocate the quotas for the year 2021 based on both the reference values and the declarations before the end of November.

[2020-11-03]

DELAY IN RESPONSE POSSIBLE - MAILBOX AND REGISTRY

Due to the Coronavirus and the associated safety precautions you may experience delays in our replies to you in the functional mailbox and in processing your requests in the F-Gas Portal & HFC Licensing System. We apologise for any inconvenience.

UPDATE - UK WITHDRAWAL: IMPORTS OF RAC EQUIPMENT PRE-CHARGED WITH HFCS

Until the end of the transition period (planned for 31/12/2020) you need authorisations in the EU HFC Registry for imports of pre-charged equipment into the UK.
After the transition period, you need quota authorisations in the EU HFC Registry for imports entering Northern Ireland, see Northern Ireland Protocol. Imports entering Great Britain after the transition period ends, will be covered by the UK F-gas system only. If you intend to use unused HFC quota authorisations, registered in the EU HFC Registry before the end of the transition period, to import into Great Britain after the transition period, you can request the

WELCOME TO THE HFC REGISTRY

This is the HFC Registry, as mandated by Art. 17 of Regulation (EU) No 517/2014.

Only producers and importers of bulk HFCs, undertakings supplying or in receipt of exempted HFCs [according to Art. 15(2)] and importers/manufacturers of RAC equipment pre-charged with HFCs need to access the Registry. If any of these apply to your organisation, this must be specified in the business specifications of your profile.

MY QUOTAS:

This part of the HFC Registry is for importers and producers of bulk HFCs. It allows them to see their allocated reference values and quotas as well as make and receive quota transfers.

ACCESS MY QUOTAS

MY DECLARATIONS:

This part of the HFC Registry allows importers and producers of bulk HFCs to make their yearly declarations of quota need.

ACCESS MY DECLARATIONS

MY AUTHORIZATIONS:

This part of the HFC Registry allows importers and producers of bulk HFCs to authorise the use of quota allocated to them to importers/manufacturers of precharged refrigeration, air conditioning and heatpump equipment. Such an authorisation allows the importers of precharged equipment to account for gases imported inside the equipment under the quota system (Art. 14)

OTHER INFORMATION:

COMMENTS FROM UNDERTAKING

Quota holding companies are divided into incumbents and new entrants. Both types of companies can grant an authorisation, **but new entrants must also physically sell the corresponding amount of gas when the authorisation is made** (which is not the case for incumbents). The new entrant or its only representative, in case of non-EU companies, must provide proof that this has been done (Article 18(2)).
