Main challenges

- the short timeline for:

  ➤ understanding the FAR, templates, guidelines

  ➤ translating the documents

  ➤ trainings for operators, verifiers.

- new elements in the methodologies and procedures:

  ➤ new sub-installation,

  ➤ MMP,

  ➤ CHP tool, BM data.

- some aspects difficult to understand which complicated the data collection and verification

- clarification often required by operators or verifiers from CAs and by CAs from EC

Addressing of challenges

- Competent authorities:

  - ➤ shall assess the submitted reports to ensure conformity with the requirements of the FAR,

  - ➤ shall request corrections by the operators of any non-conformities or any errors, which impact on the determination of the historical activity levels,

  - ➤ may request operators to submit more data.

- verified data that were found incorrect were re-verified

- minor changes accepted as long as it did not affect the allocation
