## Phase III - Improvement areas

- ★ Follow up features for CA
- ★ Structured data exchange
- ★ User experience and guidance
- ★ Timing for adoption

## Phase IV – New features

**DECLARE will offer 2 modes of submission:**

**For MS  
without an  
IT system**

**For MS willing  
to keep their  
own IT system**

### **1. Web forms**

- By the Installation Operators
- Increase user guidance
- Data accuracy and reliability

### **2. XETL**

- For machine to machine data exchange
- Interoperability
- Allow for comparison and transparency
- Reusability (pre-fill Art. 21...)

## Phase IV – New features

### **No Excel file submissions anymore :**

- Increase portability with structured data
- Decrease encoding errors
- Early validation with web forms

**Excel templates will still be available for MS's own use**

## Phase IV – New features

### Features already requested:

- ★ Art. 21 pre-fill
- ★ Reminders, notifications
- ★ Tasks and assignments
- ★ Version comparison
- ★ Link with Eurocontrol tool

**And other Change Requests to come...**

**We need stakeholders on board!**

## Next steps

- ★ **Call for interest via online survey by the e-Reporting task force (Dec 2018)**
- ★ **GO / NO GO decision by DG CLIMA (Jan 2019)**
- ★ **High level requirement analysis coordinated by the e-Reporting task force (Q1-Q2 2019)**
- ★ **Implementation plan by DG CLIMA (Q3 2019)**
