

14th EU ETS Compliance Conference

2023

Task Force Monitoring and Reporting

Doris Tharan

Main objectives and activities of TF

🎵 **Harmonised MRR implementation**

✓ **Inputs to MRR regulation during revision and COM guidance**

+ **Exchange of information on national implementation practices**

2023: Met twice:

- online in March and November,
- an additional brief meeting combined with TF AV takes place today in the afternoon

Yesterday's outcome

- Presentation of two implementation issues from the annex I revision:

(1) Municipal waste incineration (MWI) installations inclusion for MRV only

Key questions - how many are effected, how to identify them, which monitoring methods are expected.

(2) Exclusion of installations using predominantly sustainable biomass from 2026

Key questions – when MS review the 95% sustainable biomass criterion and does MS consider an obligation to require MR of emissions during the time of exclusion.

To consider for next year:

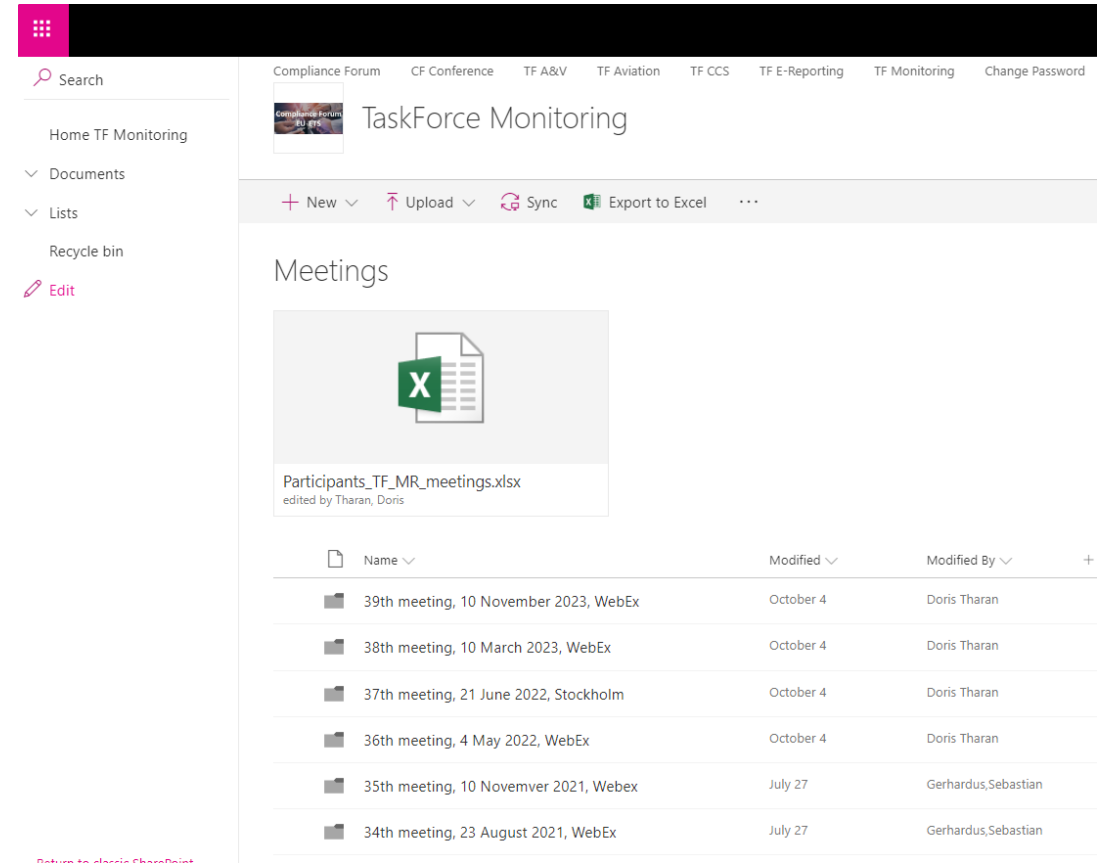

Follow-up discussion in the next meetings
