DECLARE ETS

Status overview
05 November 2015

Climate Action

4 June 2014

IT system for ETS reporting

4 June 2014

IT system for ETS reporting
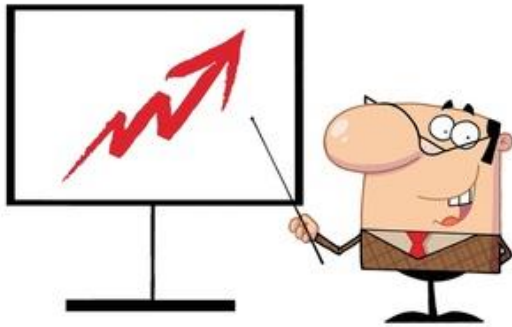

Based on existing DECLARE system

Reusing available Excel and XML templates

Developed and hosted by the European Commission

Goal

Provide grip on the reported emission data

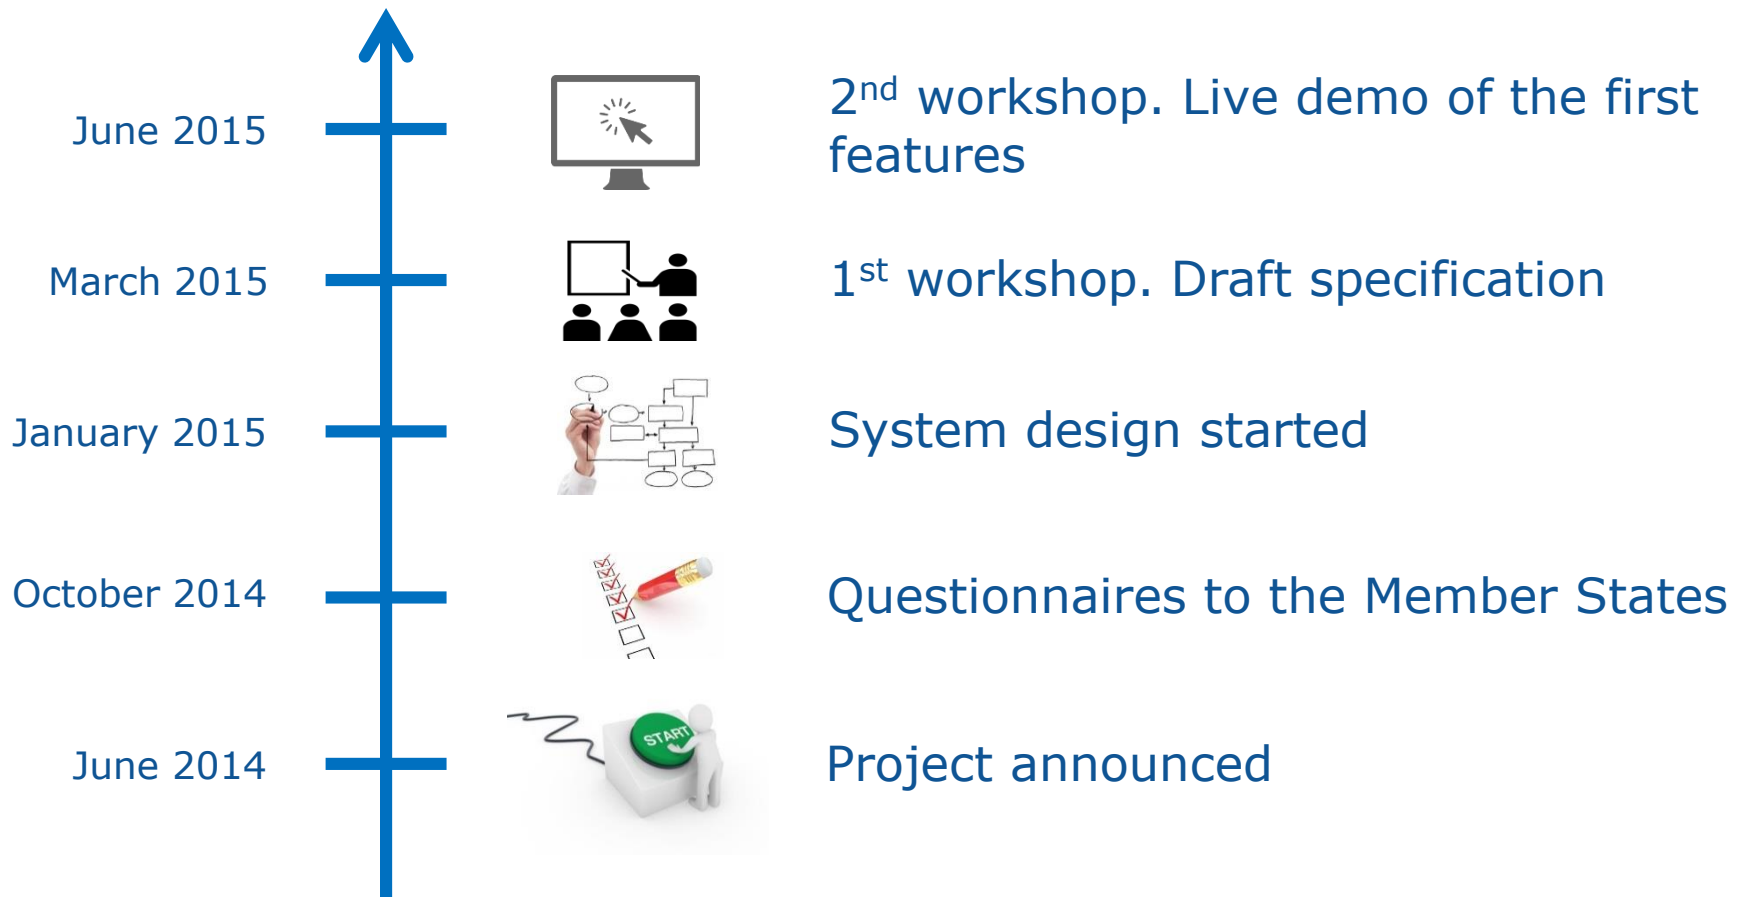

Make reporting easy and secure

Harmonize the process

Common platform

Installations

Aircraft operators

Competent authorities

IT system

Verifiers

Completed milestones

June 2015 — 2nd workshop. Live demo of the first features

March 2015 — 1st workshop. Draft specification

January 2015 — System design started

October 2014 — Questionnaires to the Member States

June 2014 — Project announced

System demo

ENVIRONMENT
DECLARE

European Commission > Environment > Declare

Welcome To Declare

DECLARE is the entry point of the Environment Data Submission Portal, supporting collection, validation, analysis, and dissemination of the statistical information submitted per domain. Please choose a policy domain to work on.

ETS - The EU Emissions Trading System

The EU emissions trading system (EU ETS) is a cornerstone of the European Union's policy to combat climate change and its key tool for reducing industrial greenhouse gas emissions cost-effectively.
The first - and still by far the biggest - international system for trading greenhouse gas emission allowances, the EU ETS covers more than 11,000 power stations and industrial plants in 31 countries, as well as airlines.

Climate Action

Next steps

April 2016 — v1.0 goes live

January – February 2016 — Pilot phase + feedback

December 2015 — Requests for participation in the pilot phase

3 December 2015 — 3rd workshop. Live demo of the new features (MP, IR, CA Reporting)
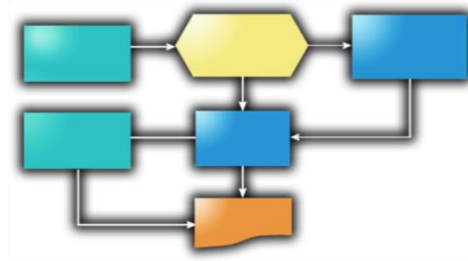

Features – pilot phase

- Organisations

- Users

- Workflows

  - AER (incl. VR)
  - MP
  - IR

- CA Reports

  - Compliance cycle

  - Emissions overview
