How to transfer (bulk) quota to  
another company in the F-gas Portal  
& HFC Licensing System

*January 2023*

## General information

Both companies (grantor and beneficiary) must have a valid registration in the F-gas Portal & HFC Licensing System.

The quota transfer function is only available for companies that defined themselves as being a bulk HFC importer/ producer in their business specification.

New entrant companies cannot transfer quota to another undertaking but they can receive quota via a quota transfer.

A transferred quota cannot be transferred again.

A quota transfer must be issued in the F-gas Portal & HFC Licensing System. Contractual agreements alone are not sufficient.

Log into the F-gas Portal & HFC Licensing System at <https://fgas-licensing.ec.europa.eu/> and enter the company profile from which you want to authorise quota (=grantor).
