Seminar on
EU ETS Compliance: the Way Forward

Panel Discussion 3: International dimensions of compliance issues

Summary First Day

Christian Egenhofer
Senior Fellow
Centre for European Policy Studies (CEPS)
Brussels

Brussels, 11 September 2008

Issues discussed

- **Performance of compliance ("tonne = tonne")**
- **Lowest common denominator or the best practice: what are implications?**
- **The role of compliance for linking**
- **How should we identify best practice within ICAP?**
- **The possible role of ISO for best practice**

Questions

- **Is there a need for <u>globally</u> harmonised /coordinated compliance rules? Is this feasible?**

- **Would there be a need for global standards on IT for compliance /international software?**

- **What is <u>global</u> best-practice? How can it be identified? What are criteria (costs, accuracy, other?)**

Questions (2)

- **Is there a case for <u>global</u> accreditation and if so why? What about Competencies of verifiers?**

- **What can EU expertise on compliance do to help linking? Can verifiers help linking?**

- **Is there a Role of Compliance Forum in international perspective and if so what would that role be?**
