

# 7<sup>th</sup> EU ETS Compliance Conference

*Conclusions & Key messages to take home*

**8 & 9 November 2016, Brussels**

# Key messages from Day I

- *MRVA remains fundamental to implementation and credibility of ETS the wider climate goals*
- *Increasing cost-effectiveness and efficiency without harming the integrity and accuracy is a high priority*
- *Current regulations offer opportunities for simplifications which are not yet fully used. Exemplar simplified Monitoring Plan welcomed*
- *The presentations have provided various good suggestions for TFs to take up in their Workplan considerations*
- *Compliance Forum is the right platform to share experiences and to identify common view and good practices*

## Key messages from Day I (cont'd)

- *Since the 2014 Compliance Review major improvements recognised in EU ETS compliance*
- *However, further improvement is justified and is a continuous process*
- *DECLARE is a key tool for further compliance improvements and increasing the efficiency of MRVA processes*
- *Important steps made in aviation (CORSIA) and shipping.*
- *MRVA serve as a solid foundation for global systems*
- *EU's bilateral cooperation encouraging international MRV/ETS implementation, similar to EU ETS, is bringing good results*
- *Continuous coordination between EU & MS crucial for maximizing international capacity building efforts*

# Key messages from Day II

- *Need to liaise TFs when exploring opportunities for simplification in the case of cross-cutting issues*
- *MS good practices can provide input in developing tools that facilitate compliance processes*
- *Site visits (inspections) are an efficient way for CAs to understand the installation and MP*
- *Opportunities for MS sharing inspection experiences and approach*
- *Need for clarity in ETS Aviation in the light of CORSIA*
