

# HIGH LEVEL ROUND TABLE ON LOW-CARBON INNOVATION

## BRUSSELS – 9 JUNE 2016

### BERLAYMONT

The Paris Agreement on climate change traces the way to a global low-carbon economy. The High Level Round Table on Low-Carbon Innovation organised by the European Commission will look into at how Europe can reap the benefits for jobs and growth.

- ▶ How can the EU maintain and exploit its first mover advantage in renewables, energy efficiency and low-carbon technology?
- ▶ How can accelerating public and private investment boost innovation and modernisation in key sectors?
- ▶ What incentives and support can help companies in Europe bring new technologies and breakthrough solutions to the market?
