

13th EU ETS Compliance Conference 2022

Task Force Monitoring and Reporting

Doris Tharan

Main objective and activities

♪ Harmonised MRR implementation

√ Inputs to MRR regulation and COM guidance

2022: Met twice online and in Stockholm together with TF AV

Yesterday's Track 1 outcome

Perspectives of the RED II implementation in the EU ETS

- ◀ Open Panel – representatives of certification system, certifier/verifier, a MS and consultant as GD 3 expert
- ◀ Short introductory presentation with discussion on the necessary changes in the MP and the timeline and the status of approval process
- ◀ Exchange where to clarify open technical questions for the certification process when the PoS will be used in EU ETS
- ◀ Divers questions left, MRR and guidance are available, now MS implement national regulations and start/have started capacity building their operators and approval processes

To consider for next year: implementation issues left but quite detailed (if necessary incl. experts in TF meetings)

Looking towards 2023

- > Looking at issues which come out of the ETD revision (e.g. CCU and RFNBO)
- > Implementation of COM GD 3 and exchange on the practical implementation difficulties and lessons learnt
- > other Practical implementation issues

NEXT TF MR MEETING: **FEBRUARY 2023**
