# Upcoming Steps to take

# Next Steps

## Upcoming Challenges for CAs:

- **Complete** approval process for monitoring plans
- **Perform** Order of Magnitude Checks of emissions reports 2019

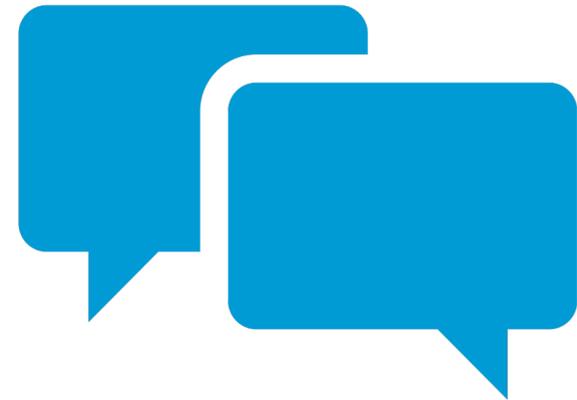

## Ideas for Further Implementation:

- **Mandatory** reporting of flights between different **third countries**
- Including those flights in **threshold** calculation
- Define **offsetting obligation** for AOs (2021ff)
- **Mandatory actions and deadlines** for Cas regarding CORSIA compliance (e.g. calculation of offsetting obligations), **including deadlines**
- Further **MRV alignment**

# Discussion

## Questions:

- Experience from the approval of amended monitoring plans:
  - Have all approvals been granted?
  - Are there any outstanding issues?
  - Any questions regarding the approval procedure or specific regulations?
- Order of Magnitude Checks of emissions reports 2019
  - Preparations / state of play
  - Questions?
- Are there any questions, ideas or suggestions for future implementation?
  - Amendment of the ETS Directive
  - Further alignment of MRV provisions
