

EU ETS Compliance Conference  
Budapest, November 25<sup>th</sup> 2020

# Practical aspects of annual activity level report

## Implementation in Hungary

Réka Mihály

EU ETS desk officer, Department for Decarbonization

MINISTRY FOR  
INNOVATION AND TECHNOLOGY

# Practical aspects of annual AL report - HU

- **No preliminary AL report**
- **AL report submission deadline: 31<sup>st</sup> March**
- **MMP**
  - besides it has to meet the legal requirements, it needs to be approved by the CA till the date of the issuance (national law 2021)
  - underline that MMP serves as the basis of AL calculation

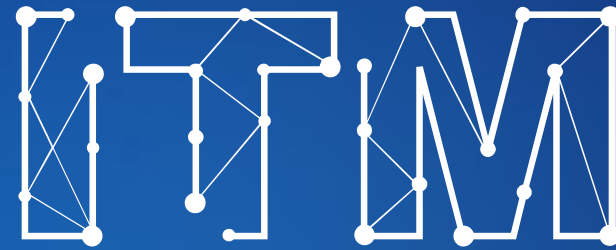

- **Suspension of the issuance of allocation** until verified application does not meet all requirements of
  - FAR and ALCR and HU national law (+ approved MMP)and
  - it was non-rejected by the COM in case of allocation adjustment is needed

- **The 28<sup>th</sup> February deadline** is very short **compared to the task** that should be done by operators, verifiers, the CA and the COM

**compromise solution** is needed

- **Issuance of free allocation until 28<sup>th</sup> February only if**
  - the verified application was submitted to CA until 5<sup>th</sup> February
  - AND
  - application is acceptable for the first time (no need for correction or clarification)
  - AND
  - COM decision on approvement is done until 25<sup>th</sup> February

INNOVATION AT WORK

Thank you  
for your attention.
