

10th EU ETS Compliance Conference

Task Force Monitoring and Reporting

Doris Tharan

Main objective and activities

- Exchange of information and group discussions on individual implementation issues, research projects, ECJ rulings

♪ Harmonised MRR implementation

- Topic-specific discussions on current developments in adjacent regulatory areas and on improvement proposals based on national implementation practice

✓ Inputs for MRR and COM guidance

Summary of recent activities

Information exchange on

- ◁ Impact of the revised RED on biomass acceptance under MRR (focusing on different definitions of terms and thresholds)
- ◁ Acceptance of biogas from natural gas grid in the next trading period
- ◁ Impact of IPCC refinements on monitoring the next trading period
- ◁ How to introduce MRR changes to the emission permit/MP approval
- ◁ Court case on the deductibility of transferred/not emitted CO₂

Discussions on individual implementation issues, e.g.

- ◁ MS' survey in the TF about fuel gas analyses for offshore installations
- ◁ How to prove limitation of the rated thermal input of combustion plants
- ◁ MS' example for exception for R&D in Annex 1 No 1 of the Directive

Looking towards 2020

- › Follow-up on adjacent regulatory areas as REDII, IPCC refinements and ISO standards, and discussion of the perspective of CCU implementation
- › Contribution to COM guidance papers
- › Learning from each other under the popular agenda item “Practical implementation issues”
- › A repetitive and future topics: exchange of information on AER validation and on automated IT evaluation rules (plausibility and compliance checks)

NEXT TF MR MEETING: **FEBRUARY/MARCH 2020 IN BERLIN**
