A. Eligibility of Member State

Member State:

--

Article 10c(1) of Directive 2003/87/EC lists the following three conditions out of which at least one would need to be met by a Member State eligible for the option for transitional free allocation:

a) in 2007, the national electricity network was not directly or indirectly connected to the network interconnected system operated by the Union for the Coordination of Transmission of Electricity (UCTE);

b) in 2007, the national electricity network was only directly or indirectly connected to the network operated by UCTE through a single line with a capacity of less than 400 MW;

c) in 2006, more than 30% of electricity was produced from a single fossil fuel, and the GDP per capita at market price did not exceed 50% of the average GDP per capita at market price of the Community.
