

# Matchmaker: Showcasing urban climate projects to investors

EU for Talanoa

13 June 2018

# CDP is the only global environmental disclosure platform

# What is Matchmaker?

- ▼ A dashboard that showcases urban climate project data
- ▼ Subscribers identify projects that meet their business development criteria
- ▼ Seed funding provided by Climate KIC

# Matchmaker mission

- ▼ To ensure cities have sufficient access to the private capital and services they need to meet ambitious climate goals
- ▼ To advance the implementation of climate resilient infrastructure through data disclosure and stakeholder consultation

# The Matchmaker database showcases projects

## 362 cities

Reported project data in 2017,  
representing US\$52bn in  
investment opportunity

## Matchmaker subscribers

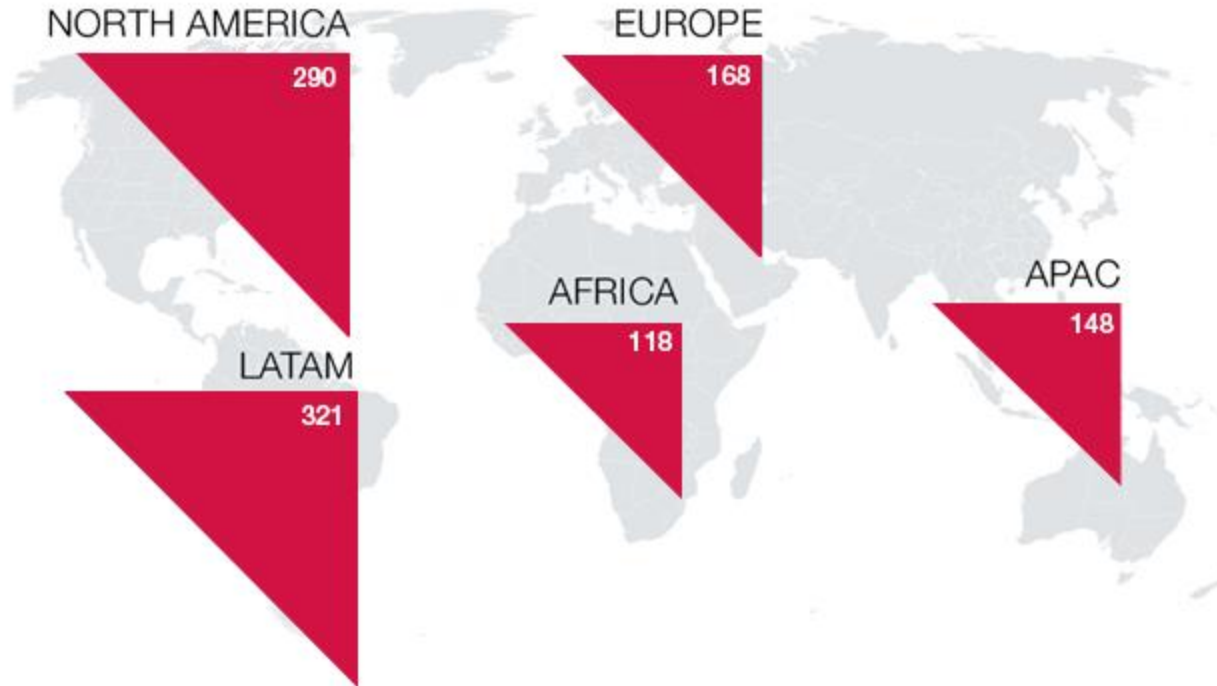

Investors, project developers,  
engineering firms & financial market  
participants

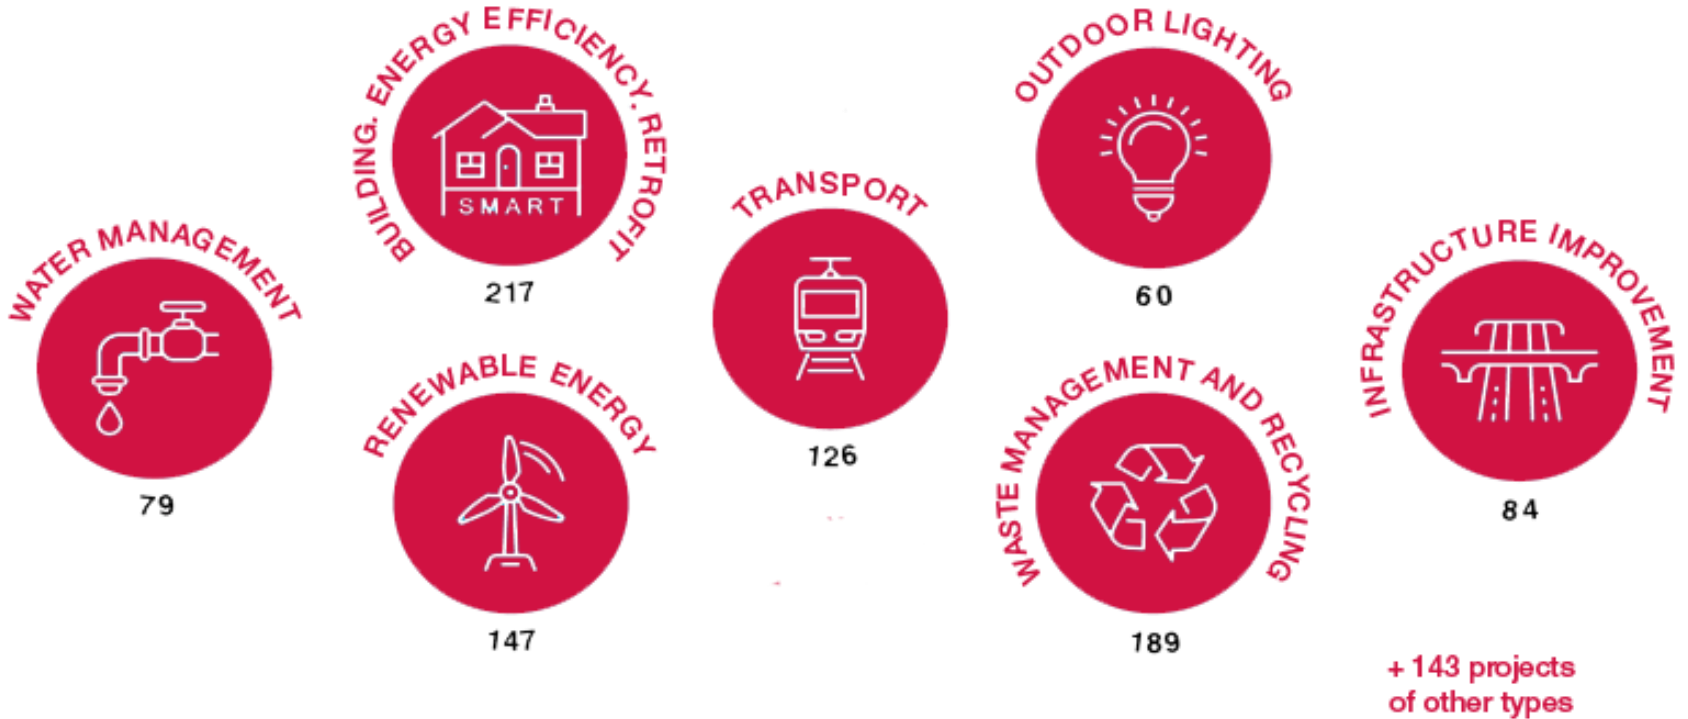

# What's in it for subscribers

- ▼ Identify urban climate projects
- ▼ ESG analysis of municipal climate risks and mitigation activities
- ▼ Co-branding and marketing opportunities

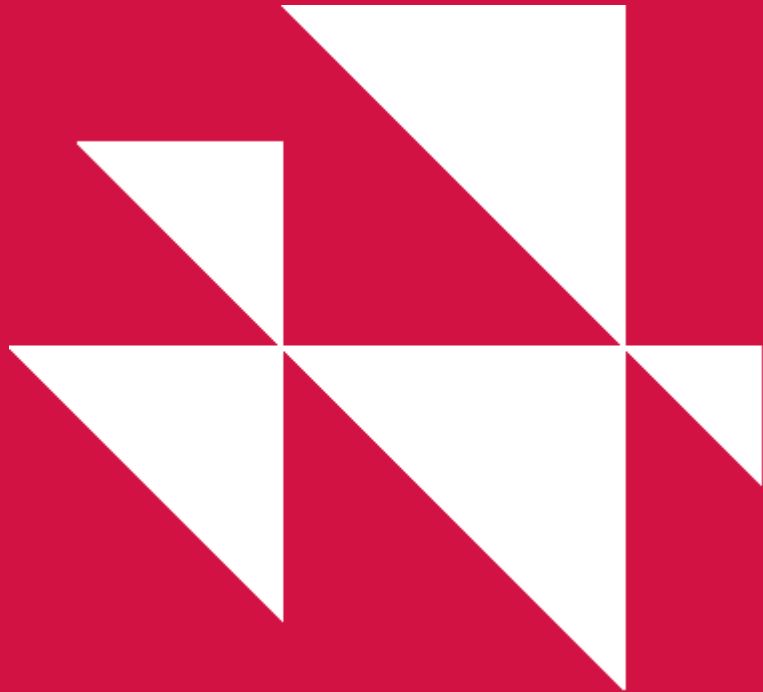

# 362 cities reported 1,045 climate projects to CDP

# Project costs range from US\$50k - US\$5bn
