

Environment
Agency

Task Force Aviation

What's it all about?

Mark Sinton

Environment and Business - Senior Advisor

EU Emissions Trading System

Environment Agency (England)

Task Force Aviation (formal)

- ➔ Share best practise
- ➔ Identify technical issues and provide a common solution
- ➔ Develop a co-ordinated approach on enforcement
- ➔ Improve communications between CAs in each Member States
- ➔ Issues looked at include, biofuels, review of emission plans, fuel density, operating ban, enforcement, issue of allowances, operators ceasing to operate etc

Task Force Aviation (informal)

- ⇒ Key part of the successful development and implementation of the Eurocontrol Support Facility
- ⇒ Relationship building between Eurocontrol and the Competent Authorities
- ⇒ Informal route for communications between CAs and the Commission
- ⇒ Relationship building between aviation CAs

Looking Forward

➔ My next presentation at the end of this session!
