

## **18/09 | Member State workshop: Sweden | Swedish Energy Agency**

The event in Stockholm was attended by close to 100 participants from businesses, national funding agencies and Ministries. In his welcoming remarks Mr Rémy Kolessar, Head of Department Research, Innovation and Business Development at the Swedish Energy Agency stated that: *“Innovation is at the centre of action. But we also need to be innovative in how we support innovation”*.

The EU Innovation Fund was presented by Mr Roman Doubrava from DG CLIMA and the audience had the opportunity to give their input to and ask questions related to the first call for proposals. 7 companies looking for funding for their next phase of demonstration also presented their project ideas to the European Commission.
